

Afghan Vascular Care Trading Company Ltd

Afghan Vascular Care Ltd is a leading Medical Device and Pharma distribution company in Afghanistan dealing with wide range of Cardiology, Gastroenterology, Urology and Pharmaceutical Products

The company was established in 2012 as a wholesale Pharma distribution and with the passage of time, we started dealing in medical devices and equipment's.

We are associated with the trade for more than decade and have vast and rich experience in the trade. It is pertinent to mention here that we are supplying best quality medicines to the people of Afghanistan from well-known pharmaceutical companies such as Abbott, Torrent, Cipla, Glenmark, Sanofi, gsk and many more companies from India and Turkey we are also the sole distributor of Yug Enterprises Delhi in Afghanistan.

Since 2017 we are supplying Cath Lab consumables and Medicals Devices of Abbott Vascular, Medtronic, Terumo, Boston, AGA, Cordis and Many more.

Since we have worked in the field of medical, we have an excellent rapport with the trade as well as with institutions and have good contacts with doctors, purchase & intending officers of various hospitals. We have good distribution network looked after by hard working and dedicated field staff who cater the market demand on regular and daily basis.

- We are regular suppliers with all major hospitals of Kabul such as Amiri Medical Complex, Royal Medical Complex, Global Medical Complex, French Medical Institute for Mothers and Children and Ariana Medical Complex etc.
- We regularly participate in tenders issued by various hospitals of the state and government body.
- We are financially sound and ready to make the required investment in your company.
- We are eagerly looking for the suitable business partner with whom we can grow our business for mutual growth. We are confident with the wide range of products your company has, we can fulfill our ambitions and will lead to our mutual growth.

We have sufficient warehouse space available and refrigeration facility for the products that require low temperature according to the product profile.

For a better and strategic distribution, we use well-known accounting software for control and expiry checks.
